Professional Profile

I have participated in various training programs that have enriched my skills as a web developer. My passion for technology motivates me to continuously learn and become an exceptional professional. I am ready to tackle new challenges and contribute my creativity to innovative teams.

Work Experience

Web Developer Front-End - Makisan Tech

June 2023 - December 2023

- Developed and maintained applications and web pages using various tools and technologies.

Full-Stack Developer - Egg Cooperation

December 2022 - September 2023

- Collaborated in different processes for the development and layout of web applications, both in the back-end and front-end.

Web Developer Front-End - Eidos Global-Accenture

March 2023 - June 2023

- Planned and created various content for websites, ensuring the achievement of established objectives.

Academic Training

Full Stack Developer Core - Digital Nao x Tecmilenio

October 2023 - Present

Interdisciplinary web development:

- Front End (user-facing interfaces and systems)
- Back End (logic, servers, and databases)

Developer Full-Stack - Egg Cooperation

December 2022 - September 2023

- Introduction to programming, Java, MySQL databases, and React.js. Also covered topics such as object-oriented programming, exception handling, and database connections.

Web Developer Front-End - Eidos Global-Accenture

March 2023 - June 2023

- Program designed to enhance skills in Front End technologies, including HTML, CSS, JavaScript, Bootstrap, and GitHub, with the aim of boosting web development and collaboration in projects.
